

Single Head Spools

Since 1953, Crellin, Inc. has served the textile industry with a full line of single head spools.

Standard wall single head spools are offered in medium impact polystyrene and ABS in natural and colors. Heavy walled spools are manufactured in polypropylene.

Color coding rings, which can be press fit into the top of the spools, are available in thirteen different colors reducing the need for large spool inventories.

The Standard wall barrel surface is knurled. The Heavy wall barrel surface is embossed and may be knurled if needed.
